

Onething Technologies to Unveil a New Concept of Phone-Based Shared Computing Smart Device OneThing Cloud Mini at CES 2019

Media Report

Posted on Jan 7, 2019 Source: *businesswire*

Leading cloud and blockchain innovator Shenzhen Onething Technologies Co., Ltd. (“Onething Technologies”) today announced that it will unveil a new concept of shared computing phone-based smart device OneThing Cloud mini, at CES 2019. The new conceptual product, OneThing Cloud mini, will be the world’s first phone-based shared computing smart device. It is designed to aggregate idle computing resources from spare smartphones and to convert these resources into enterprise-level cloud services.
