

Xunlei launched HarmonyOS applications

Media Report

Posted on Oct 28, 2024 Source: China Daily

Xunlei is among the first to adapt its applications to Huawei's HarmonyOS operating system. Huawei recently hosted the "HarmonyOS Night" and Huawei All-Scene New Product Conference, officially introducing users to its new HarmonyOS operating system (HarmonyOS NEXT).

Xunlei has taken the lead in developing HarmonyOS applications, which have been successfully deployed across a wide range of devices including smartphones, tablets, and PCs. These applications are now available for download from Huawei App Store.

As one of the leading cloud service providers in China, Xunlei download and cloud services have accumulated over 1 billion users. To better cater to user needs, Xunlei has been expanding its product functions to fit HarmonyOS, enabling users to enjoy a seamless experience with extensive cloud drive storage, high-speed downloads, high-definition picture, accelerated playback speed, and other advanced functionalities.

In the future, Xunlei will continue to collaborate with Harmony, supporting the development of the Harmony ecosystem. Xunlei will further enhance and optimize product functions for HarmonyOS, while remaining committed to delivering user-friendly, secure, and efficient products and services.
