The Xunlei Game Accelerator was officially launched on April 29, 2024, and players can now download the free trial of the acceleration APP by visiting the official website at: [jsq.xunlei.com](http://jsq.xunlei.com).

The Xunlei Game Accelerator currently supports a wide range of games, including APEX, PUBG, CS:GO, Rainbow Six: Siege, Fantasy Paru, DOTA2, Diablo 4, World of Warcraft, Overwatch 2, Eternal Battlefield, Goose Goose Duck, GTA5 Horizon 5 and nearly 100 other games.

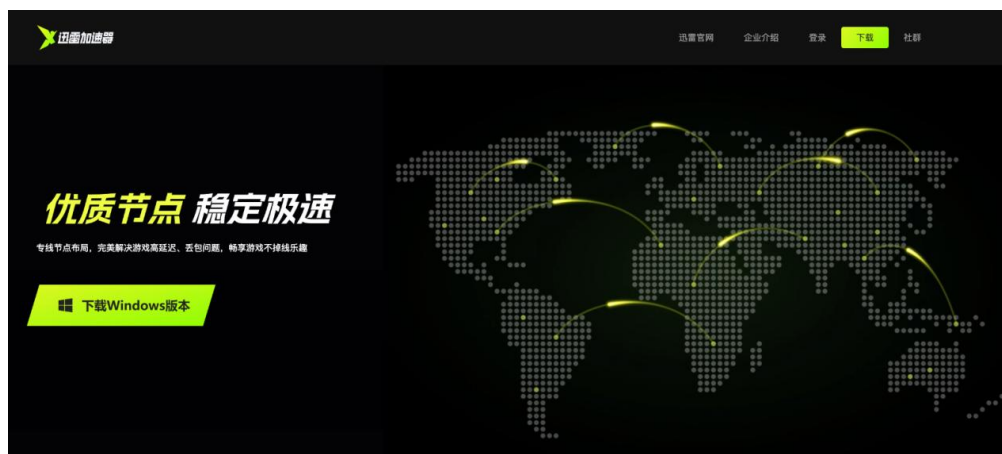

The Xunlei Game Accelerator is a specialized acceleration tool specifically designed for global game enthusiasts, with the aim of providing stable and efficient game acceleration services to address issues such as high cross-region latency and unreliable connections. Our goal is to ensure that every player can enjoy an unparalleled gaming experience.

The Xunlei Game Accelerator enhances performance in three key areas: Firstly, it provides a dedicated line for global core server acceleration, ensuring players have a stable and seamless connection while playing mainstream games worldwide. Secondly, it utilizes Xunlei's self-developed acceleration protocol to significantly reduce latency and improve data transmission efficiency during gameplay. Lastly, Xunlei Accelerator's intelligent routing algorithm analyzes real-time network conditions and automatically selects the optimal path, further optimizing the gaming experience.

Xunlei has been engaged in the field of data transmission for two decades, demonstrating a strong commitment to innovation and delivering an exceptional user experience. Xunlei Game Accelerator represents another remarkable project in the realm of transmission, and we trust that this accelerator, rooted in the essence of Xunlei's DNA, will deliver a distinctive user experience.
