

# Xunlei joins a National Copyright Trade Protection Consortium Blockchain

Media Report

Posted on March 24, 2022 Source: *Xinhua*

---

On March 24, 2022, Xunlei announced that its ThunderChain has joined a national copyright trade protection consortium blockchain, which is established by XINHUANET and Shanghai Cultural Assets and Equity Exchange, and become a member of this national governance eco-matrix for digitized cultural assets.

Xunlei's digitized cultural and innovative products can be deposited onto this national copyright trade protection consortium blockchain and transferred and circulated through a "Digital Cultural Property Rights Registration, Custody and Circulation Zone" after obtaining a relevant "Digital Registration Certificate".

Xunlei has devoted to blockchain technology research and development for many years and launched its ThunderChain in 2018. It has conducted a series of blockchain research and application projects and submitted applications for relevant patents. As of today, Xunlei's major accomplishments in the blockchain space include an Enterprise Digital Collection Service Platform, ThunderChain BaaS platform, Enterprise Consortium Blockchain Service, ThunderChain Contract Open Platform, etc.

Becoming a member of this national digitized cultural assets and innovation governance ecological matrix is not only a recognition of ThunderChain, but also will help Xunlei further blockchain development and accelerate its applications to serve the real economy. In the future, Xunlei will continue to follow the codes of practice of the blockchain industry and help speed up the development of digital intellectual property rights and digital culture industry.
