On June 18, 2020, a ceremony was held to mark an important milestone of Xunlei Tower, the new headquarters under construction for the company. Mr. Yubo Zhang, the President of Xunlei, and representatives from the construction company witnessed the finishing of the last-poured concrete slab for the building.

The project was recognized by Shenzhen Construction Industry Association for its quality and construction site safety in the first half of 2020. In the coming months, a series of sub-projects will be embarked on things like siding, interior furnishing and smart building solutions, etc.

Constructed by China State Construction Engineering Corporation (“CSCEC”), Xunlei Tower is a 26-story building located at a major transportation hub in Nanshan District, Shenzhen. Occupying approximately 54,000 square feet of land with a floor space of about 470,000 square feet, it will serve as the combined office and R&D center for the company.
